Determine how you will administer your **YOUTH**
and **STAFF** surveys?

Online Surveys:

If staff and/or youth have access to the internet through a computer, laptop, smart phone, or tablet the online survey is the right choice for you, as it makes data entry extremely efficient and allows you to access data in real-time.

OR

Paper Surveys:

If your youth and/or staff do not have access to internet devices, please use the paper versions. Or mix and match, using the online surveys with adult staff and paper surveys with youth!
